Release Plan

Revision History

Author	Date	Revision
R. Lucchese	10/1/2020	Initial Release

Release Summary

Initiation

Iteration #1 (7/1 – 15/2): Requirements Exploration

Elaboration

Iteration #2 (15/2 – 30/4): Baseline Architecture

Construction

Iteration #3 (10/5 – 21/5): Premium Client pages

Transition

Iteration #6 (21/5 – 8/6): Defect Repair and Stabilization

Iteration #1

Objective: The purpose of this iteration is to design a first scratch of the site, allowing users-log in.

Features / Activities / Deliverables	Estimated Effort ¹	Actual Effort
Requirements Specification	2 hrs	
Project Plan	3 hrs	
Iteration #1 Plan	1 hrs	
Technical Prototype	4 hrs	
Customer Approved UI Prototype	4 hrs	
Architecture Document	4 hrs	

¹ Effort estimates are given in terms of uninterrupted working hours. A good rule-of-thumb is to assume about 6 uninterrupted working hours in the typical 8-hour workday.

Iteration #2

Objective: The purpose of this iteration is to design a first scratch of the site, allowing users-log in and to serve users with personal pages, using cookies.

Features / Activities / Deliverables	Estimated Effort	Actual Effort
Personal Pages	70 hrs	
Architecture / framework design	20 hrs	
Authentication / Credential management	50 hrs	
Totals:	140 hrs	

Iteration #3

Objective: The purpose of this iteration is to allow users to modify ingredients of a recipe based on their needs, cooperating with food providers

Features / Activities / Deliverables	Estimated Effort	Actual Effort
Granting access to the site to food providers	50 hrs	
Total:	50 hrs	

Features not scheduled but under consideration
